### Four on Holt shortlist

13 January 2006

---

Edaw, **MacCormac Jamieson Prichard**, Studio Egret West and Maxwan are on the shortlist to masterplan Holt Town, a development in east Manchester.

The winning practice will design the 34ha, £500 million quarter for Citibas Investments.

The site is in the New East Manchester Regeneration Zone, with the Will Alsop-masterplanned New Islington and ING's Royal Mills development. Together, they form one of the biggest urban regeneration projects in Europe.

Citibas executive director Mike Appleton said: "This is the first time in England there is an opportunity to completely re-engineer an existing part of the city by introducing new uses in a fully mixed-use sense and careful coordination of development and design."

The four shortlisted practices have until the second week of February to respond to the stage two brief. An appointment will be made in March.

Citibas is a limited company with investors including ING Real Estates, Stanhope and Waystone.
