

MJP's Wolf's Caves model at Royal Academy Summer Exhibition

MJP's model of their 5 bedroom Wolf's Caves house project on the north coast of Jersey is in the Royal Academy Summer Exhibition (14th June – 22nd August 2010)

This extraordinary site, wild and windswept and falling precipitously down towards the rocky coastline, and Wolf's Caves, invites a particular kind of architectural response.

The new house is located at the edge of the escarpment defined by the infinity pool, beyond which only the sea is visible.
